It has been said that, when Sir Thomas Wade was informed that the Chinese stopped junks and boats under the very places where our forts are supposed to exist, that diplomatic gentleman is reported to have stated that such a matter could be easily dealt with by the Police Authorities. Now, if a couple of steamlaunches could be employed at either end of the Harbour limits for a month or two, it is not improbable that a new light might be thrown upon the whole question of how our trade is hampered No one, not even the Governor himself seems to fully understand how completely the "cordon" has been drawn across the Harbour entrances; and the services of these launches might be the means of placing the Government in possession of known facts upon which important conclusions might be arrived at. This item has apparently been authorised under the Secretary of State's despatch of 15th August, 1879, while, as we have stated above, it was passed by the apparently easy going or helpless Finance Committee on the 7th June of this year, If Government House has bitherto been lighted for \$1,440 a-year, it is absurd to suppose that a sum of \$4,800 is now required for that purpose : so that the principal reason for the increase must, we fancy, be sought for in the " do." mentioned in the printed document. No tax-payer would be so small-minded as to object to pay for the gas-bill of the Queen's Representative, even though that personage were as unpopular as well could be; but there seems to be a lack of information on this point, and residents are desirous of "more light" upon it. the Chamber of Commerce for its apathy Governor Hennessy at one time advocated Sr. STEPHEN'S Mission Church.-Rev. and inactivity on this most important that the sittings of the Finance Committee should be open to the publicl: here is an instance, amongst others, for the desirabi-

What really has been done is this, that a slight measure of justice has been meted out to Sergt. Quincey in giving him the promotion he ought to have had many years ago in the ordinary course of events had he not been placed on the seconded list. He is now the Senior Sergeant save one. His advancement brings him neither increased pay, extras, nor any emolument whatever; and is purely a matter pertaining to rank and precedence. Sergeant Quincey's ten years are up in a month or two. The Chinese monarch rewarded their valuable services by the gift of the city of Macao, which at that time contained about 50,000 inhabitants. The city is situated at the mouth of the Canton river, on a peninsula on the with which it is connected by a long low isthmus, about one quarter of a mile wide. Macao was formerly a flourishing commercial city, but with the decline of the Portuguese power in the East it lost is importance. And now the ingratitude and selfishness of the disciple of Confucius is apparent. COL GORDON'S VISIT TO CHINA. Colonel Gordon arrived here this afternoon by the P. & O. steamer Ravenna, and proceeds as far as Aden by the same steamer, or her connections, after which his movements are, up to the present moment, uncertain. Nine tenths of what has been published editorially, by correspondents' letters, and as items of local news in the newspapers of North China, is mere bazaar-"gup." The only fair rendering of his past movements and present intenti ne, judging from what we have been informed in personal interview with the gallant Colonel, is contained in a long local paragraph which appears in the N.-C. D. News to hand today, which must have been written on the same basis of information as that we ourselves found our statements upon. There has been a great deal said about the Inspector General of Customs (Mr Robert Hart, C.M.G.) having written something to Col. Gordon which changed to a very great extent the Colonel's plans and objects. For this idea there is no foundation whatever. When Colonel Gordon arrived at Chefoo, it is true, he received a letter from Mr Hart. embodying a suggestion that it would not be altogether wise or advisable on his part to pay a visit to Li Hung-chang, and that if he did, it should be merely a ceremonious visit, the Colonel immediately going on to Peking. In nothing that Mr Harthas done has there been anything approaching an at of some iron, to pay \$20 or suffer two tempt to control Col. Gordon's movements or to unduly suggest what the course was which he should pursue; and at the present moment Mr Robert Hart and Colonel Gordon are as staunch friends as ever they were. They are believers in different policles. The Inspector-General of Customs has long advocated the policy of the centralisation of the military and naval power of the Empire in the Peking Government, thereby weakening the provincial Governments, and this is a policy at complete variance with Colonel Gordon's views of what stocks in Tank Lane. His previous conis wise under the circumstances. He says viction was in January of the present year, point of view. that the Central Government is too weak, fickle, and rotten to be strengthened and that the "strengthening" should be given to the Provincial Governments. He points out to the Chinese Government how powerful they might be with strong Provincial Governments, and how powerless they are with weak Provincial Governments. Col. Gordon utterly disclaims any suggestion of an act arroneously attributed, most probably in ignorance of the facts, by some of the newspapers, to Mr Hart,that he did something in some way approaching an attemtp to "burke" his (Col. Gordon's) opinions. Mr Hart did his duty and no more. And in the same way, Col. Gordon says, Sir Thos. Wade behaved in a manly and straightforward way. It was his desire to prevent any outbreak of hostilities or breach of peace or It was at Sha U Chung. straining of friendly relations between Russia and England; and in pursuance of this object he give Col. Gordon pointedly side. to understand that if he did not watch his footsteps warlly, cause for rupture might arise in his proceedings at Peking, if not indeed out of the mere fact of his presence there. SIR THOMAS WADE AND THE NEUTRALITY OF BRITISH SUBJECTS.

A Notification has been issued b H. B. M.'s Consul at Shanghai, from Si Thomas Wade, K.U.B., for general in formation, as follows :-

PEKING, 6th August, 1880. SIR,-In various letters or articles containing speculations upon the contingency of a war between China and the local newspapers or elsewhere of late, reference has been made more _ann once to the possible employments of British subjects in the Chinese army or navy. I could have wished much that has

the kind is calculated to excite false hopes, it is as likely on the other to produce a feeling of irritation. My purpose, however, is not the criticism of opinions that this publicist or that may hold or express, but to remind such of Hor Majesty's subjects as may take an interest in the question of military service in China, of the exist-

ence of certain regulations which I think

been written on this subject unsaid, for

while, on the one hand, speculations of

have perhaps been overlooked by the writers of the papers to which I allude.

I beg to refer you to Section VI of the Order in Council, 1865, for the Government of Her Majesty's subjects in China and Japan, the Section relating Paragraphs 81 and 82 of the Order. which prohibit, under serious penalties, engagement, whether for or against the Emperor of China, in war between His Imperial Majesty and any enemy, domes-

"82 .- If any British subject without the licence of Her Majesty (proof whereof shall lie on the party accused) takes part in any operation of war in the services of the Emperor of China against any person engaged in carrying war, insurrection, or rebellion against the Emperor of China, he shall be deemed guilty of a misdemeanour, and on conviction thereof shall be liable (in the discretion of the Court before which he is convicted) to be punished by imprisonment for any term not exceeding two years, with or without hard labour, and with or without a fine not exceeding 5,000 dollars, or by a fine not exceeding 5,000 dollars, without imprisonment,"

COMMERCIAL,

By the concentration of stocks of Bengal Onlum the rates for the drug stiffened on the departure of last mail. Since then, he tone of the market continued steady. thong there has been a wide range of rates for New Patna in particular, for the right of selecting chests. Although the local demand for Benares has been somewhat slack, holders of the drug have continued firm, in anticipation of large calls for it from the Coast. Of Old Patna but a score of chests have been moved off at a better figure than that last quoted, The present quotations are \$680 to \$637} for New Patus and \$6011 to \$6025 for Benares. The quotation of \$615 to \$620

for Old Patna cannot be much relied upon. The receipts for the month remain as last noted, 8570 chests. During the interval some 750 chests have been taken by the local consumers, against 1, 00 chests at the corresponding interval last year. This, with the exportations, leaves the available supply computed at 2,750 chests, against 1,550 chests at the corresponding period last year, Of this last quantity 450 chests were Benares, of which kind the present stock comprises a similar quantity. THE GREATEST

WONDER OF MODERN TIMES! HOLLOWAY'S PILLS

Long experience has proved these famous remedies to be most effectual in curing either the dangerous maladies or the slighter complaints which are more particularly in-cidental to the life of a miner, or to those living in the Occasional doses of these Pills will guard the system against those evils which so often beset the human race, viz: -e-nights, colds, and all disorders of the liver and stomach—the frequent forerunners of lever, dysentery, diarrhosa, and cholera.

Is the most effectual remedy for old sores, wounds ulcers, rheumatism, and all skin diseases; in fact, when used according to the printed directions, it never fails to ture alike, deep and superficial ailments. These Medicines may be obtained from all respectable Druggists and Store-keepers throughout the civilised world, with directions for use in almost every language. They are prepared only by the Proprietor, Thomas Holloway, 533. Oxford Street, London.

THE CHINA REVIEW.

THE widely-expressed regret at the discontinuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

THE CHINA REVIEW, or Notes and

Queries on the Far East, is issued at intervals of two months, each number containing about 60 octave pages, eccasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such

extra matter. The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly in advance. The publication includes papers original

and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Por-tuguese, are admissible. Endeavours are made to present a resume in each number of the contents of the most recent works bearing on Chinese matters. Great attention is also paid to the Review

department. Notes and Replies are classified toge-ther as "Notes" (head references being given, when furnished, to previous Notes or Queries), as are also those queries which though asking for aformation, furnish new or unpublished details concerning the matter in hand. It is desirable to make the Queries proper as brief and as much to the point as possible.

The China Review for July and August, 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly and enterprising Review. It is a sixty paged, bi-monthly, repertory of what scholars are ascertaining about China. The lecture on Chinese Pootry in this volume is alone worth the price of the Review. Address China Review, Hongkong. - Northern

Christian Advocate (U.S.) Trubner's Oriental Record contains the following notice of the China Review :- " This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as in some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful serial a year or two ago has been much regretted in Europe as well as in China. The present publication, judging by the number now before us, is intended to occupy a position, as regards Ohina and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years , upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chines scholarship is now assiduously cultivated and who are severally represented in the lire number of the Review by papers highly creditable to their respective authors. 1 Rev. E. J. Eitel, to which the place of honour is deservedly given, an exceller summary is presented of the chronologica problems and arguments involved in connexion with this important work. Some are marked by both accuracy and freshner of style; and an account of the career the Chinese poet-statesman of the elevent century, Su Tung-p'o, by Mr. E. C. Bowra is not only historically valuable, but is also distinguished by its literary grace. Besinotices of new books relating to China an the East, which will be a useful feature the Review, if carried out with punctual and detail, we are glad to notice the "Notes" and "Queries" are destined find a place in its pages also. It is to hoped that this opening for contribution on Chinese subjects may evoke a simi degree of literary zeal to that which w displayed during the lifetime of its prede-cessor in the field, and that the China Review may receive the support necessary to insure its continuance. The publication is intended to appear every two months, and will form a substantial octave magazine.

The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan, from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese, — consider themselves justified in guaranteeing an ultimate circulation of between 8,000 and 4,000 copies. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find it to their interest to avail themselves of
